

Polyurethane Zinc plated caster- ASE649

Light/ Medium Duty

Light/Medium duty casters support individual weight capacities of 150 lbs. to 400 lbs. They function well in day to day use and general-purpose applications. Series 20 products include a wide range of light/medium duty casters in zinc, stainless steel and the P&H rust resistant plastic caster models.

The Series 20 product line also includes our Precision Raceway line of medium duty casters that utilize a precision bearing raceway in the swivel. These very specialized casters are guaranteed to increase performance and reduce noise in any application.

Features

Design

Capacity	200 lbs.
Wheel Size	4"
Thread Width	1-1/4"
