

Stainless Steel-High Temperature- Orange Epoxy Resin Caster

Bakery Caster

Made from shock and impact resistant epoxy resin or durable phenolic materials, these wheels are unaffected by most chemicals, water or steam — making them the perfect choice for in-store bakeries and food service operations. Wheels also include some of our most popular Crown tread Polyurethane family of wheels that are standards in the retail industry as well as our family of high temperature wheels. Our superior quality caster brackets are highly polished AISI 304 stainless, making them longer lasting and maintenance-free.

MGX/ 100HMS

Features

Design	Stainless Steel Casters with Epoxy Resin wheel
Capacity	Up to 500 lbs.
Mounting Plate Size	3-1/8" X 4-1/8"
Bolt Hole Spacing	1-3/4" X 3" slotted to 2-3/8" X 3-7/16"
Mounting Bolt Diameter	3/8"

Benefits

Bakery Equipment	Maintenance Free
Rough Epoxy, Tile, Stained Concrete, etc.	304 Stainless-Steel heavy-duty brackets
+550°F to -20°F Temperature Range	
500 lbs. load capacity	
Oven Carts and Racks	

Application- For oven baking rack, can withstand up to 550°F
Stainless steel swivel is made of 304 stainless and can handle up to 600°F

 Wheel Diameter	 Wheel Width	 Capacity	 Wheel Type	 Overall Height
4"	1-3/4"	500	Orange Hi Temp Epoxy Resin	5-1/8"
