

Stainless Steel-High Temperature- Tan Composite wheel

Bakery Caster

The STW wheels can be fitted into a specific series of brackets for high/low temperatures, which are specifically studied and produced to fulfill the extremely wide variability of conditions to which they are submitted in the world of uses in temperatures and bakery / food industry. These wheels grant a superior and unmatched mechanical resistance to heavy impacts, an outstanding resistance against chipping and breaking caused by hitting of sharp obstacle and a great rolling capacity even in plain bore configuration, thanks to the self-lubricating properties of the THT material.

MGX/100STW

Features

Design	Stainless Steel Casters with Tan Composite Wheel
Capacity	Up to 350 lbs.
Mounting Plate Size	4" X 4-1/4"
Bolt Hole Spacing	1-3/4" X 3" slotted to 2-3/8" X 3-7/16"
Mounting Bolt Diameter	3/8

Benefits

Bakery Equipment	Maintenance Free
Resists chipping on rough floors	304 Stainless-Steel heavy-duty brackets
+536°F to -94°F Temperature Range	
350 lbs. load capacity	
Oven Carts and Racks	

Application- For oven use, can withstand high temperatures
